

Connected automated transport

The transformation has started

Smart Flow Management

Smart Mobility Management

APPLIED AUTONOMY

olav.madland@appliedautonomy.no, +47 464 46 900

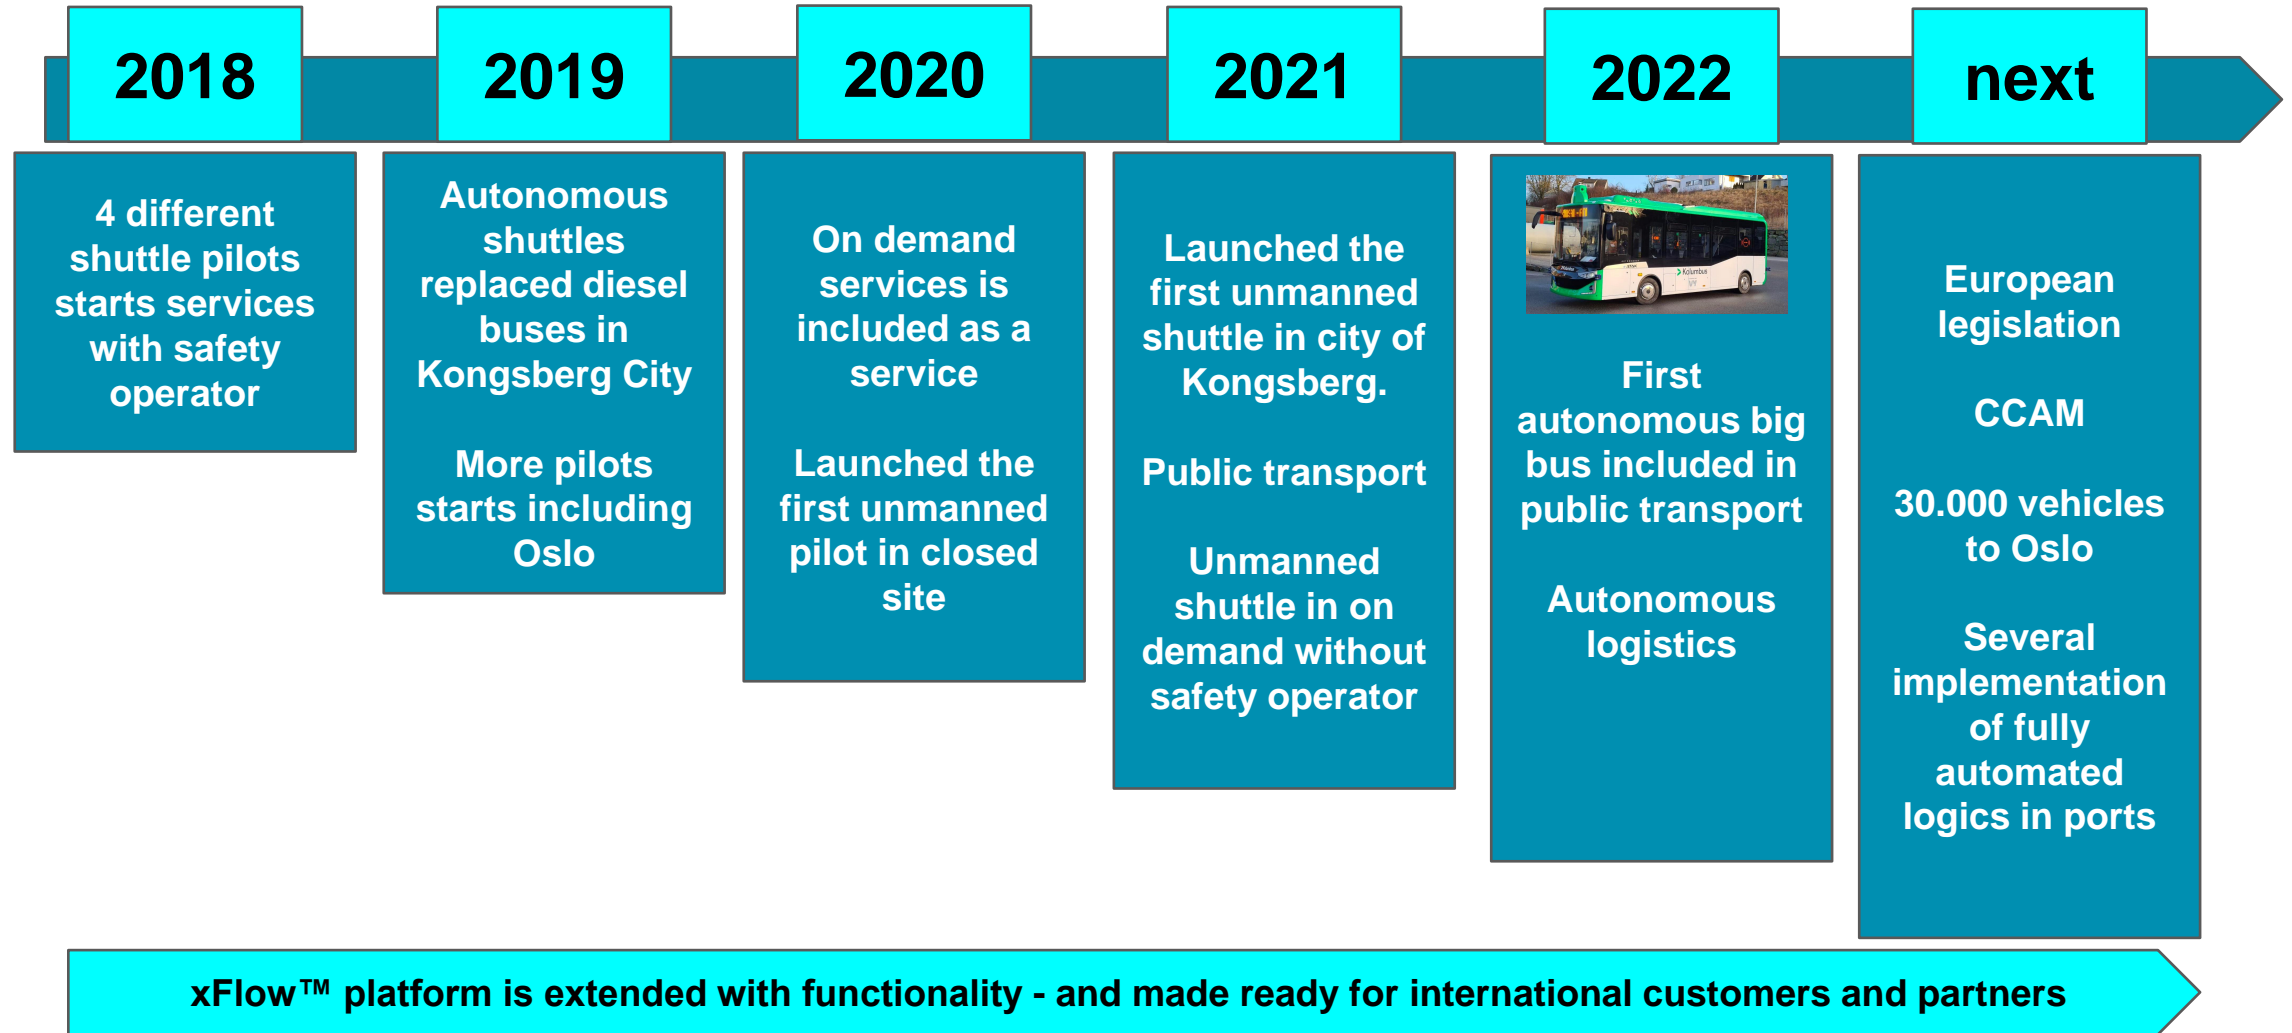

Norway started in 2009 - Legislation in 2017

Permitting autonomous vehicles to operate without a safety driver in the vehicle

Applied Autonomy has been supported by the Norwegian Transport Ministry and the Norwegian Parliament from day one

Timeline - Norway

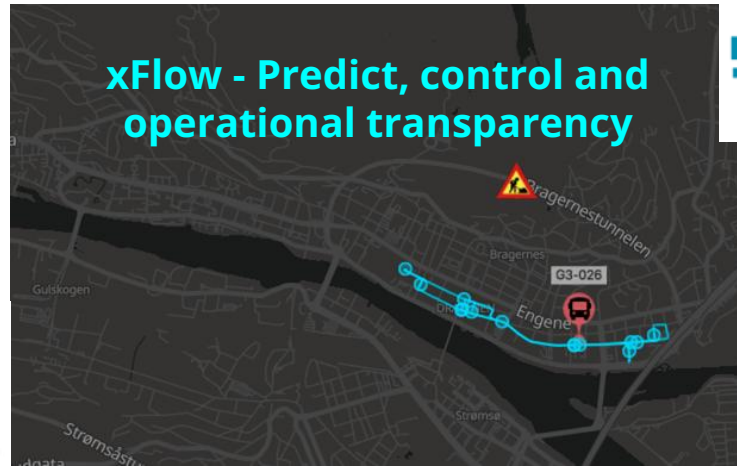

Applied Autonomy xFlow™

Vehicle deployments included in xFlow™

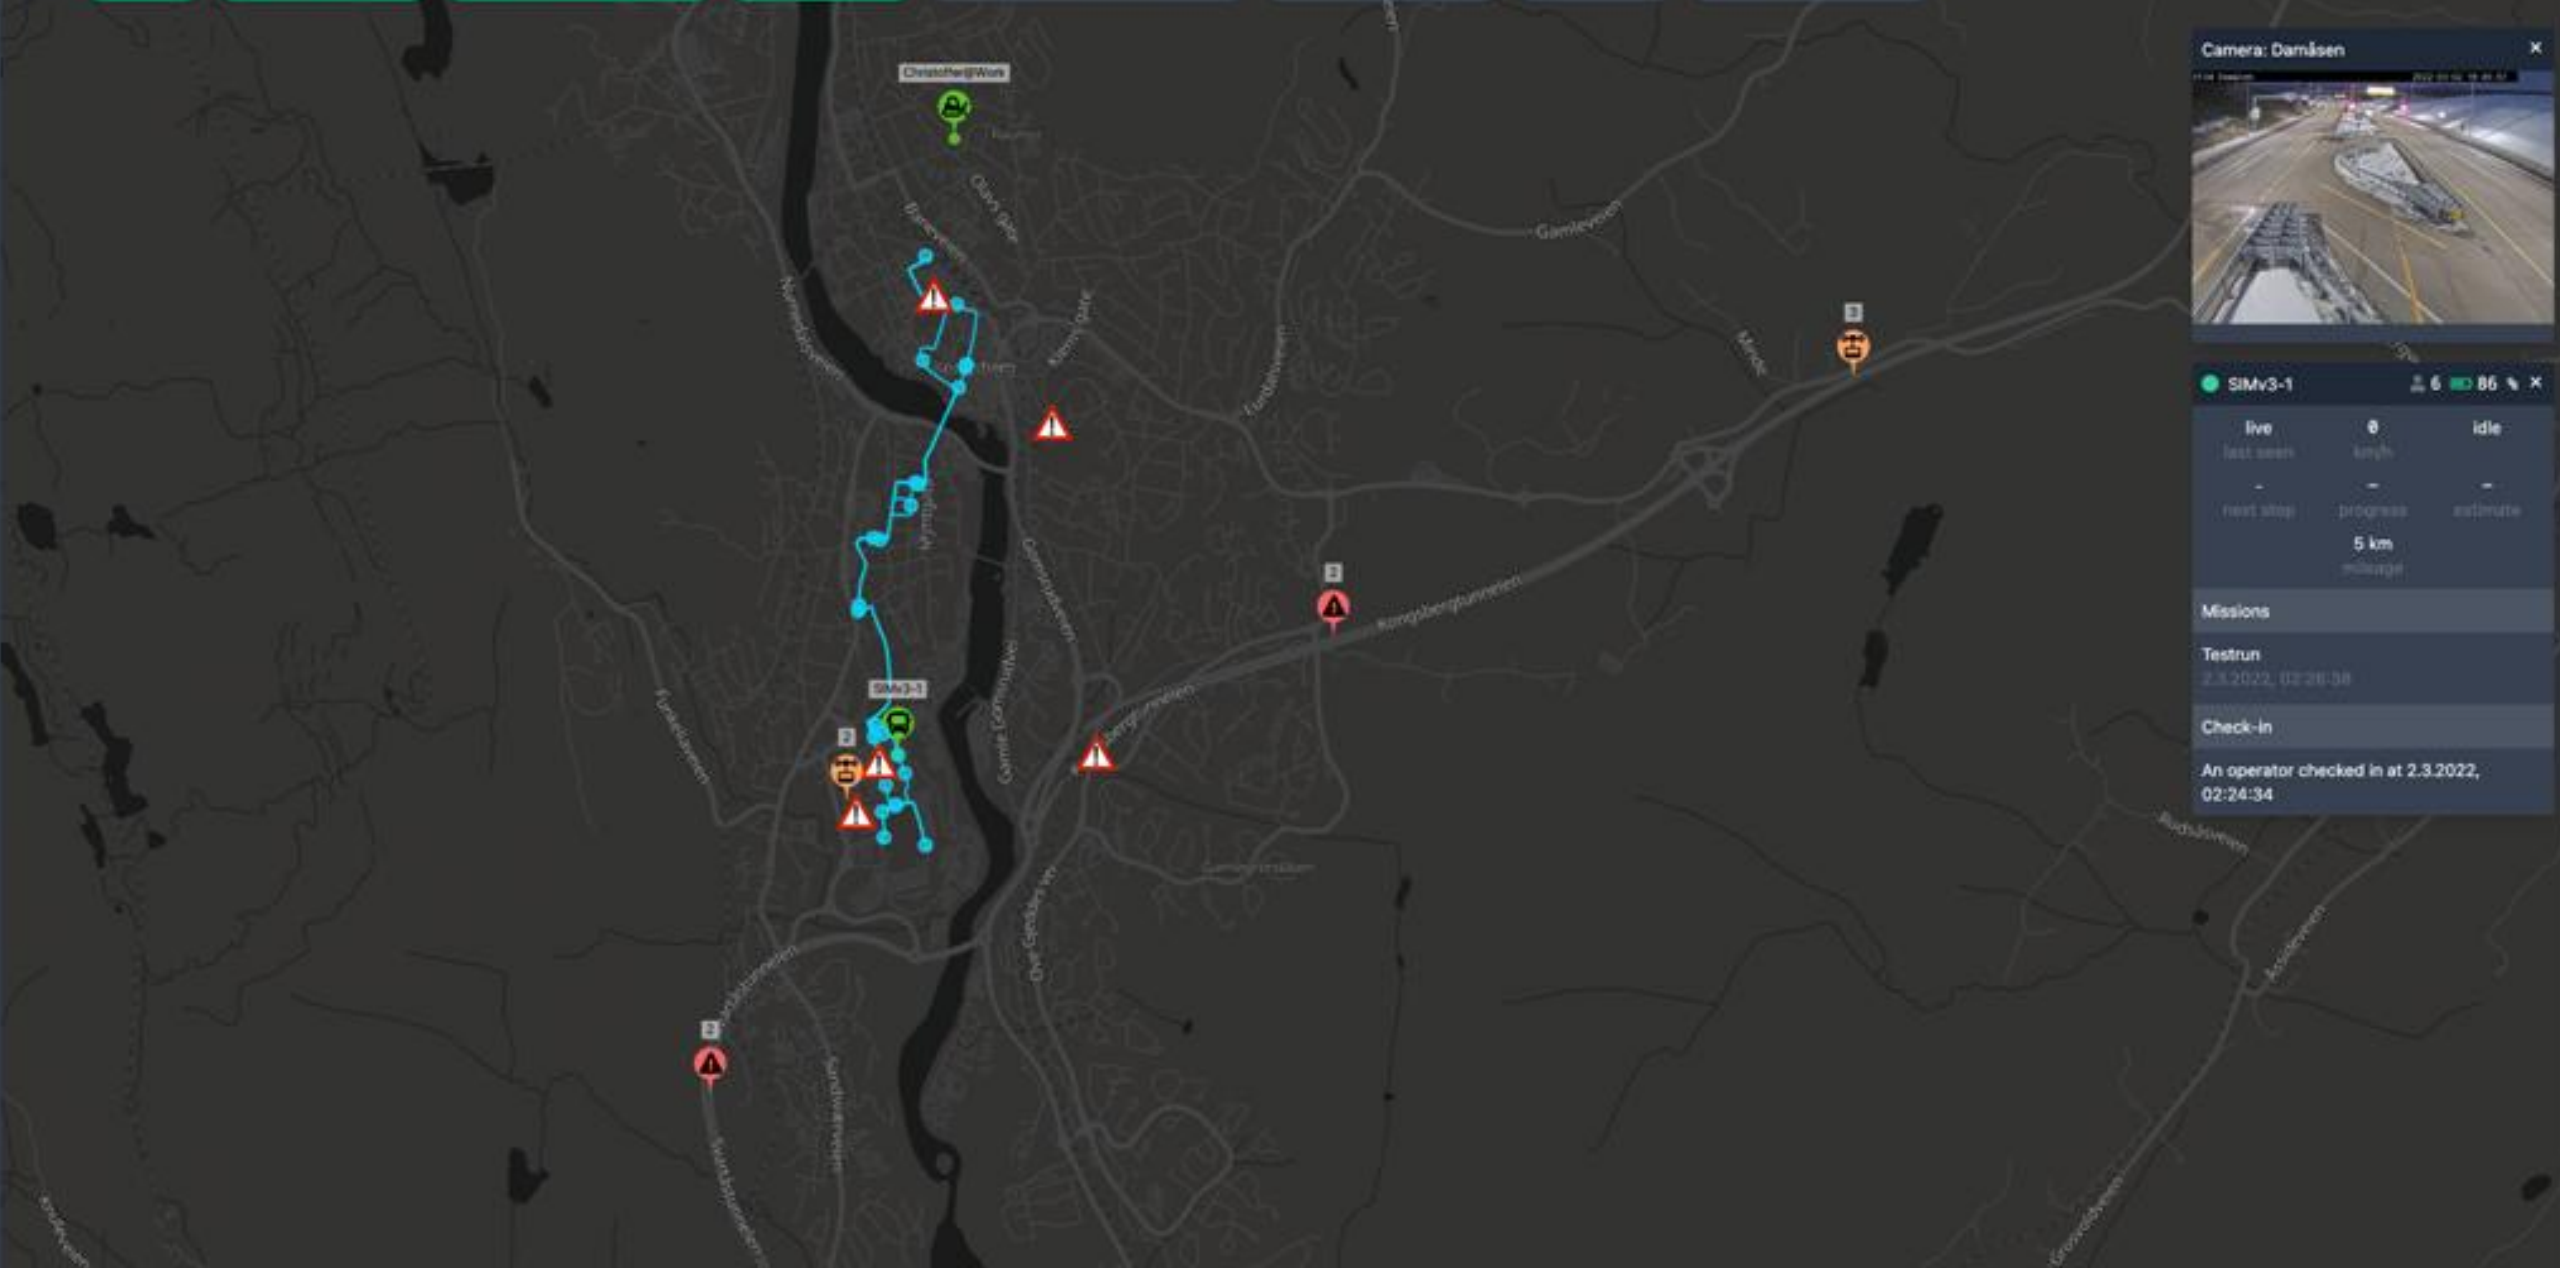

Combined solution

Automated system of system

Mixed fleets

No missions found

Check-in

No check-in found

Next step

- **User acceptance is very good = Elderly and children is enthusiastic users - even without safety driver**
- **Good support from the government**
- **New operation in several locations in Europe and Norway**
 - **30.000 smaller autonomous vehicles in Oslo, Norway**
 - **2000 autonomous buses in Oslo, Norway**

Thank you!
